Notes
 Coordinate system is based on Ordnance Survey National Grid (OSGB36/15).
 Coordinate system was established using the OS active station GNSS network.
 Grid is related to Ordnance Survey coordinates.
 It is important to note that the same accuracies implied by the plotting scale are equally applicable to digital data supplied for CAD.
 Visible features in the vicinity of the boundaries, as shown on this survey, may not represent the extent of legally conveyed ownership. Boundary details have been taken from UAV data and are approximate only.
